

A complex set of frontal systems will be pushing areas of precipitation into Scotland and parts of northern England. Surfaces will be below zero, so this means the risk of ice, as well as localised smaller amounts of snowfall. Precipitation should tend to fade away again during Monday.

Valid from **23:00 on Sun, 17th Jan 2016** until **11:00 on Mon, 18th Jan 2016**

Please be aware of the potential for tricky winter driving conditions.

Issued by the Met Office at 10:53 on Sun, 17th Jan 2016
